AuthorHouse. Paperback. Book Condition: New. Paperback. 312 pages. Dimensions: 9.0in. x 6.0in. x 0.8in. The information in this book derives from personal experience, scientific research, observation and social interaction with drug users. These factors empowered me with the ability to write this book. I wrote it with the public in heart and society in mind, and that nothing, I mean nothing is more empowering than knowledge, especially when it is new or original. So, this book comprises the basic stages and phases of the subjective process of drug addiction, which is in keeping with the deletion of receptor proteins off the surface of the nerve membrane. It is a perfect asset to any library, community as well as home. It is a perfect guide for drug users, the general public and as well parents with growing up children. There are many sources or references in this book of scientific research studies that are present and past. At least twenty years has been invested in this book and innumerable rewrites, in order to get it right by properly putting it together with scientific research in support, rather than just personal experience and common sense, or knowledge. One of the major aspects of this book is the subjective process of drug addiction, which is supported by the proper and appropriate, scientific research according to the removal of drug- receptors from the surface of the nerve membrane. Another major feature of this book is that it puts drug use mood swings and marked behavior changes in an ordered sequence. Even science itself has not been able to put the bits and pieces of studies together in order to exhibit such, but it enabled me to do so. For example, this book tells us when drug users become biologically exposed to the drug, when the...
