Tate Publishing Enterprises, United States, 2015. Paperback. Book Condition: New. 178 x 127 mm. Language: English . Brand New Book. How does a guy whose education teaches him to draw conclusions from hard facts let God's gift of faith work in his life? If you're trained to look for cause and effect in what you observe, how do you reconcile what you can see with what you can't see? Fortunately, this engineer's reading material goes beyond textbooks and trade journals to the Bible. His search for understanding includes many be still and know that I am God moments and many good and bad life experiences. Collecting these thoughts and experiences on paper led to this book. It isn't very long. The word count isn't important. The content is. The author was waded through many technical documents that hid drops of wisdom in an ocean of words. God didn't complicate things for us. He made them simple. Finding meaning should be enlightening, not exhausting! The author's approach is saying what needs to be said clearly and concisely.
