The rational energy of the Greeks. - The Greeks were not the first people who found out how to till the earth well, or to fashion metals, or to grow rich by war or commerce, or to build splendid houses and temples. But they were the first people who tried to make reason the guide of their social life. One proof of this is found in the very existence of the Greek cities. While other men were living in tribes or under despotic kings, the Greeks had already gathered themselves together in cities, - societies ruled, not by force, but by the persuasions of equal law. Another proof of it is found in the Greek books. There we find writers of all sorts, poets and historians and philosophers, habitually striving to get at the reasons of things. On this side, Greek literature has an interest such as belongs to no other literature. It shows us how men first set about systematic thinking. It shows us how some questions which have been solved...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
