He turned down opportunities to move to Hollywood and stuck to his dream of making his own movies and telling his own stories. This book chronicles the making of Bills first feature-length epic Sci-Fi film Matt Mercury, Plot of the Galactic Mastermind! With nothing more than his skills, a credit card and the determination to succeed, Bill and his wife Heidi have discovered the secrets to making films that look like those with multi-million dollar budgets and distributing them on modern digital platforms and beyond! Bill tells all in this occasionally opinionated, yet fully exposed exploration of the storytellers craft. No secrets are kept as this book describes every detail of Bills journey to making money in the Indie film business!.
