

## Organisational Ethics - A Case study review

Filesize: 3.06 MB

### ***Reviews***

*It is one of the most popular pdf. It really is full of knowledge and wisdom. It has been developed in an exceptionally easy way and it is just right after I finished reading through this publication by which it really altered me, altered the way in my opinion.*

GRIN Verlag Jan 2009, 2009. Taschenbuch. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2004 in the subject Ethics, grade: 85%, University of Strathclyde, 15 entries in the bibliography, language: English, abstract: The origin of the word 'ethics' is derived from the Greek word 'êthos' , which, in a more precise translation, might be better rendered as 'image'. The science of ethics, as it became established in the eighteenth and nineteenth century, was concerned with the search for absolute standards of conduct guiding decisions and actions, and was closely tied to the concept of duties derived from core values . Since ethics itself, as moral philosophy, set out to establish generally accepted standards of right and wrong, the word 'moral' became interchangeable with 'ethics', although the former originally referred to the act and the latter to the abstract principle from which the act was derived. In the meantime, 'being ethical or moral' has come to imply conforming with specific (generally acceptable) standards, whereby the initial agenda of establishing universally applicable moral principles has been replaced by the realisation that groups of people can also adhere to or deviate from a set of their own ethical standards. From this, it follows that such standards can be established by an individual, a corporation or a nation to help or guide decisions and actions. Schoen (1979 ) even sees the metaphors employed as vital to the framing of issues, since these guide both what is deemed to be a problem and the paradigms used in addressing them. This notion of defining problems and paradigms is clearly applicable to managers and leaders paid to make organisational decisions congruent with the organisational culture, whereby the choices they have to make may...
